WORK EXPERIENCE

Laravel, NCCS Software

May 2025 – Present

- Developed the SOS Alumni Management System, enabling alumni registration, verification, and comprehensive profile management. Implemented contribution workflows, automated push notifications, approval-based status updates, and a real-time activity feed to strengthen community engagement.
- Built and enhanced the Asset Management System by developing modules for asset registration, barcode generation and printing, asset categorization, supplier management, asset handover processes, purchase order management, and asset request workflows for streamlined inventory operations.
- Contributed to the EMIS Library Management System by developing and maintaining modules for book issuing, return records, student/member tracking, and detailed library activity management.

Laravel Intern, NCCS Software

December 2024 – March 2025

- Developed core EMIS API modules, including student and teacher registration, assignment management, and notice/calendar systems.
- Implemented Role-Based Access Control (RBAC) for Admin, Teacher, and Student roles.
- Collaborated with the team using GIT and followed clean coding practices.

EDUCATION

Bachelor of Computer Application | National College of Computer Studies, Tribhuvan University | 2020 – 2025
